

# **Applicability**

This Schedule is applicable to small, constant, non-metered incidental loads for utilities, communication agencies, state and city agencies, and applicable special districts where the customer owns and maintains the equipment. The District will have sole discretion of the ultimate applicability of this Schedule. The customer must supply equipment wattage to the District. Such loads would include:

Cathodic Protection Stations

Motorized Gates

**Irrigation Controllers** 

Flashing Beacons

Sign Illumination

**Communication Power Booster Devices** 

## **Character of Service**

Energy will be supplied at 120/240 volt single-phase service. Load must be tested by the District and verified that it does not exceed 2000 watts

A new service application with a completed load sheet including the exact location(s) of the load device noted must be submitted to and approved by the District before any incidental electric load device is installed.

Any overload of a District circuit where incidental loads are present or the unauthorized installation of incidental load has occurred will result in incidental loads being disconnected.

Incidental electrical loads covered by this Rate Schedule where the customer is unable to meet the requirements set forth in this Schedule or fails to notify the District of incidental electric devices installed on unmetered services must install, at the customer's expense, an individually metered service in order to serve these loads under the appropriate General Service Rate Schedule.

### **Territory Served**

The entire area within the Modesto Irrigation District electric service boundary or any other area served by Modesto Irrigation District pursuant to the laws of the State of California and the District's Electric Service Rules.

LAA/L

#### **Rates**

Service charge per end use connected load:

kWh	Per Lamp
Per Day	Per Day
Not Exceeding 50% Load Factor (to be verified by District):	
0 - 200 Watt	\$0.61
201 - 400 Watt2.57	\$0.88
401 - 600 Watt4.27	\$1.15
601 - 800 Watt5.97	\$1.44
801 - 1000 Watt	\$1.71
1001 - 1200 Watt9.40	\$1.98
1201 - 1400 Watt	\$2.25
1401 - 1600 Watt	\$2.54
1601 - 1800 Watt14.50	\$2.81
1801 - 2000 Watt	\$3.08
In Excess of 50% Load Factor:	
0 - 200 Watt	\$0.68
201 - 400 Watt2.57	\$1.10
401 - 600 Watt4.27	\$1.52
601 - 800 Watt5.97	\$1.94
801 - 1000 Watt7.67	\$2.36
1001 - 1200 Watt9.40	\$2.79
1201 - 1400 Watt11.10	\$3.21
1401 - 1600 Watt12.80	\$3.63
1601 - 1800 Watt14.50	\$4.05
1801 - 2000 Watt16.20	\$4.47

## **Term**

One year, and from year to year thereafter, until canceled at the end of any one year term by either party upon ninety (90) days prior written notice to the other.

## **Special Provisions**

### 1. Relocation and Changes: District-Owned and Maintained Equipment

The District will, at a customer's request, relocate District's existing equipment, provided the customer reimburses the District for the cost of necessary labor and materials, including engineering, supervision and general expenses.

#### 2. Termination of Service

Upon termination of service, the District shall have the right to remove all of its facilities placed, installed, erected or used in supplying services hereunder.

#### 3. Electric Service Rules

Service under this Schedule is subject to the District's Electric Service Rules as they may be amended from time to time.
