Territory Served

The entire area within the Modesto Irrigation District electric service boundary or any other area served by Modesto Irrigation District pursuant to the laws of the State of California and the District’s Electric Service Rules.

Determination of Demand

Whenever the monthly use of energy has exceeded 8,000 kilowatt-hours for three consecutive months or whenever, in the opinion of the District, as, for example, in the case of new customers, the demand is estimated to exceed 20 kilowatts, a meter to measure required demand will be installed and the customer will be served under Electric Rate Schedule GS-2. Such meter, once installed, will not be removed until the demand has fallen below 20 kilowatts for twelve consecutive months.

Under certain circumstances, the District may, at its sole option, estimate the demand of the customer. This will usually be done (a) for new customers whose usage is not yet known; (b) when meter readings cannot be obtained; or (c) when a demand meter is required, but may not yet have been installed.

Special Provisions

1. Multiple Metering

Apartment houses, or groups of apartments in the same building or on the same premises, which are not “NEW BUILDINGS” as that term is used in Section 113(b)(1) of the Public Utility Regulatory Policies Act of 1978 (PURPA), may receive service under this Schedule through one meter, provided that such energy is not resold by the apartment owner or any other agency.

2. Energy Assistance Program

A discount of 60% will be applied to the Fixed Monthly Charge and a discount of 23.1% will be applied to the Electric Usage for low income customers who meet eligibility requirements and are enrolled in the MID CARES program as outlined in Electric Service Rule No. 19.

3. Electric Service Rules

Service under this Schedule is subject to the District’s Electric Service Rules as they may be amended from time to time.
